

Elite Traveler Reveals Top 100 Suites in the World 2023

This year's list is divided into 10 categories, allowing users to find the best suite for their vacation.

By Alex Martin

Elite Traveler has revealed the Top 100 Suites for 2023, showcasing the pinnacle in modern luxury and hospitality. The Top 100 Suites is presented alongside an updated World's Finest Suites database containing key information on over 700 luxurious and exclusive hotel accommodations.

Presented alongside stunning behind-the-scenes images, descriptions and luxury rankings, World's Finest Suites allows you to search for your next hotel stay using over 60 different criteria including sustainability practices, welcome amenities and even bulletproof glass.

Every suite in the database hits the minimum standard of five-star luxury, but the majority go above and beyond. Through detailed analysis, we have also given special mention to suites that meet exacting specifications for privacy, sustainability, fine dining and more.

Throughout this year, we'll be further improving our database by categorizing the very best according to vacation type, starting in February with Top Wellness Suites.

This reflects the way this year's Top 100 Suites have been presented in the Winter print edition of *Elite Traveler*, which divided the suites into 10 categories including adventure, family, beach, city, eco-friendly, historic, new openings, fine dining, editor's choice and wellness.
